

Greener salutes our Visual Materials Specialist, Jose Humberto Casillas, for his contribution to the Peter Alexander art exhibition of cast resin sculptures now on view at Culver City gallery Nye + Brown. One of the founding artists of the Light and Space movement, Alexander has shown internationally and is represented in Pacific Standard Time: Art in LA 1945-1980, at the J. Paul Getty Museum, as well as in numerous related shows around the city. Humberto brings to Peter's projects 20 years of expertise in the use of cast resins. He and Alexander are currently collaborating towards a March exhibition in Berlin."
